## THE COMPANY

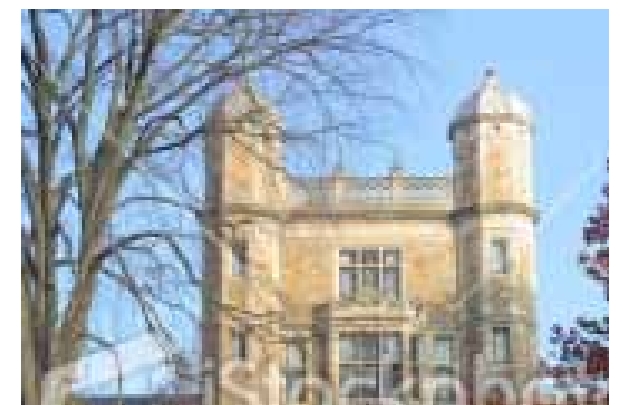

JANINA FREIGANG

**FREIGANG APPLICATIONS CONSULTING** was founded by Janina Freigang shortly before her graduation from ESCP Europe in the fall of 2012. She saw the need for job applicants, students and professionals looking for sponsors to receive some guidance and support in order for them to reach their professional goals. So she decided to create a team of international consultants that offers personalized and professional consulting services in order to help candidates to make themselves stand out – whether it is in an application for a top company, a renowned university or financial sponsoring.
